

BUILDING HOMES CHANGING LIVES

SERVING FAMILIES IN TIJUANA, MEXICO

Every year GCA students in grade 9 travel to Tijuana, Mexico to build homes for families experiencing poverty.

Working alongside local leaders, students build each home from the ground up and present the family with a key to their new home that can change their future - providing safety, dignity and hope.

For our students, the experience deepens their compassion and shapes how they see, serve, and engage with the world around them.

PARTNER WITH US TO TRANSFORM LIVES

Your donation to our silent auction helps raise critical funds for building supplies and tools!
